

ALLURE range solution

INSTALLATION ON ADJUSTABLE AXES

- Suited to vertical layouts and particularly effective **on soffits** when access to space under the panel is required
- Tray panels can be fixed into position but **individual panels can still be easily dismantled**
- Very suitable for **modules of great height**
- Tray panels installed easily and quickly
- Substructure pre-assembled in the workshop with on-site adjustability
- Width of the horizontal recessed joints can be selected

The SANAGA® solution complies with requirements of the CSTB (code of practice for building works / technical approval) depending on the material used and the type of substrate.

ALLURE range solution

- 1 Substrate
- 2 Insulation
- 3 Right angle fixing bracket
- 4 Secondary substructure
- 5 Sliding bracket
- 6 Metal or composite cladding
